## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- 1.1 Claim 4 of the present Application contains unknown characters (claim 4, lines 2 and 3) that render claim 4 vague and indefinite.

## **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not specifically disclose or remotely suggest

With regard to independent claim 1:

a monitoring system for performing system operations including installation, parameter settings, and activation of related functions for different operating systems;

a socket service interface for generating a socket linking service in communication nodes of both entities through an IPv6 layer in processing mobile packets.

These limitations, in conjunction with the other limitations in the independent claims, are not specifically disclosed or remotely suggested in the prior art of record.

A review of claims 1 - 3, in view of the Examiner's arguments above, indicates that

Art Unit: 2141

claims 1 - 3 are allowable over the prior art of record.
